SUMMARY

Passionate Frontend Developer with over 3 years of experience in React.js, JavaScript (ES6+), HTML5, and CSS3. Proven track record in architecting and delivering scalable, high-performance web applications, optimizing UI performance, and owning end-to-end feature development. Skilled in collaborative problem-solving and driving innovation.

WORK EXPERIENCE

Arche Softronix Pvt. Ltd. - Associate Front End Developer | Vadodara, India Sep 2022 – Apr 2025

(PROACT, HEALTHBOX):

- In this healthcare project, I played a versatile role that included developing a **Report Builder** module to empower users in generating dynamic, customized reports as one of several key functionalities within the application.
- Integrated REST APIs and boosted UI performance by approximately 30% using **lazy loading** and **efficient rendering**.
- I gained hands-on experience with a variety of packages such as **react-table**, **react-hook-form**, **react-select**, and **react-zoom-pan-pinch**, among others.

OPSACUITY:

- Contributed to the ERP system by setting up the folder structure and configuring the **routing architecture for different modules**.
- I implemented comprehensive **Roles and Permissions** management and also utilized the **ApexCharts** package for graphs.
- Implemented **animations** in several parts of the module to make it more interactive and visually appealing.

SYNAPP:

- In this healthcare project, I developed responsive modules and layouts with UI libraries like **Ant Design**, integrated essential packages, and connected REST APIs.
- Developed a **signature capture** component using **JavaScript** and **HTML5 Canvas API**.
- To reduce code complexity, minimize duplication, and enhance readability, I developed essential **utility** functions and **custom hooks** for common use cases throughout the project.

Arche Softronix Pvt. Ltd. - Trainee Developer | Vadodara, India March 2022 – Aug 2022

Money Mantra Financial Services - Financial Services Associate | Vadodara, India May 2021 – Feb 2022

Value Max Financial Services - Financial Services Associate | Vadodara, India Dec 2020 – Apr 2021

INDEPENDENT PROJECTS

Real Estate Website - [realestate website](#)

- Project with customer and agent roles: customers view property details while agents add, update, or delete listings.

Portfolio Website - [portfolio-website](#)

- Built and deployed a personal portfolio using **React**, hosted on **Vercel** for seamless project showcasing.
